## ÆON OF CETUS

The general idea of the zodiac lies with informing one of one's own guardian angel and natal predispositions. These trigger into events which are calculated by the so-called directions. While the client does not have to bother with detail, explanation is due. Prior to the establishment of the zodiac – Academic Zodiac – various simplified models shared up to seven (7) signs or constellations of zodiacal offset. *Note that the present paragraph was primarily written for the generations ahead.* This means that in the year 2011 as we write this, zodiacal offset steadily grows towards fantastic seven (7) signs for winter nativities. The next generations would have seven signs of error, as if up to six weren't already scandalous in a spiritual person. The present error is up to six signs. Of course, one may have two, three or four signs of error, as distributed across

## INITIATION RISKS

Persons and cultures which consider themselves “spiritual” may in fact not be genuinely interested in your true natal stars at all, thus making initiation as harmful as questionable.

## NOTA BENE

Nota bene - various faux zodiacal proposals do *not* display or bear the shameful mark of persistent asinine error at all, as they were associated with “tradition”. It is largely assumed that “tradition” makes for any error. Said error becomes “traditional”, thus “holy”. One is suggested to “bear with it”. They smuggle faux natal skies for you under the mask of tradition in order to mangle your true personality as well as complete lifetime.

## 9-11

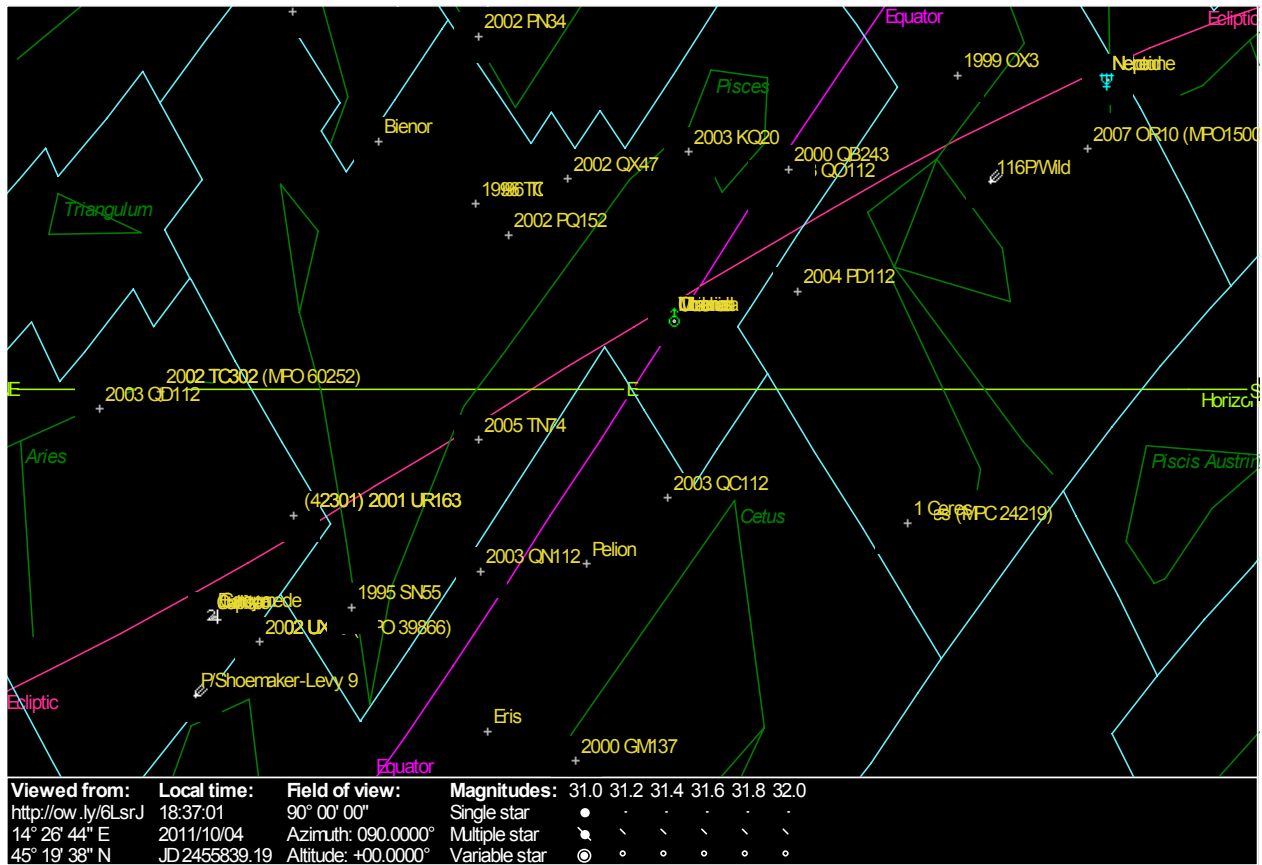

You are suffering because of illiterate people who could not calculate 9-11 and in fact they did not even come close to foretelling such a simple event. No astrologer foretold anything simply because there was not one. So why does the mob believe in the selfsame

people who were genuinely surprised at 9-11? Because the mob does not know better and the media do not want them to. A misinformed mob is easy to rule.

## ZODIACAL OFFSET

If someone went wrong, it must be at NASA, since NASA instead of keeping to whatever dubious tradition does in fact take care of your true natal skies. That mountebanks calling themselves “astrologers” could not calculate a simple cotangent must be clear even in a toddler. How does the whole construction hold? It does not. It collapses every time an “astrologer” – surprisingly – dies or goes to hell. It is interesting how everything seems to surprise the selfsame people who would attempt at guessing your own Sun-sign given seven chances. Being experts in the field “they know” Sun-sign and so do their counterparts. Suffice to have astronomers out of the room – not an easy task inviting them in the first place; while chasing them off would prove superfluous: they leave gladly.

PUBLICATIONS AND SITE URL DEADLINE

<http://www.lulu.com/spotlight/astrology>

The cetacean<sup>1</sup> years 2011 & 2012 do mark interesting times, indeed. At present, the zodiac is partly vanishing from the web due to a timed deadline. Thousands of publications will expire by mid October 2011, never to be republished again. Make your download till October 14<sup>th</sup> 2011 when the revealing publications are alas scheduled for timely self-destruction. You don't want the strategic zodiacal as well as magical material to fall into wrong hands, do you now?

## WITCHALLOW

As new skies barely make appearance, it's not as yet really known what *new heavens* **are** about. Traces of what we *do* know are to be found within the large body of *Dark Flux – Axis of Evil* material. The deadline - *expiry* for said purchase is October 15<sup>th</sup> 2011. This deadline is **final** as concern multimedia files. The publications will most certainly *never* be republished. At best, within an accident of luck – they will be made fairly available *on special request* and understandably **considerable additional cost** from RTRRT Masters and initiates. Providing timely expiry, a comparatively modest *Complete Works* \$ 10000 republication – recession exempt - could thus reach half a million of Euros worth by year 2017, **zodiacal information worth its weight in gold.**

---

<sup>1</sup> 2011- Jupiter and most planets in Cetus. 2012 - Uranus in Cetus. We live in the Æon of Cetus; Age of Pegasus.
