LIFE

Life is easily determined by a couple of parameters. These are calculated by memory while doing something else. Shoeshine boys, butchers and florists divined for their customers while serving them. Learn the simple art of instant divination. Just a second and your next marriage is determined by day. Fifteen minutes and all the loves of your life are determined by time and quality. “When do I marry next” was always a matter of seconds – an easy calculation that everyone is capable of. No pen, no paper, no calculator, no iPhone and of course no computer at all. No need for any encumbering books, ritual or God-forbid pseudo-astrological “PC programs” at all. No useless ephemerides, no tables of houses, no chart wheels. And above all, no misleading cookbooks for mountebanks.

DIVINATION

Ask 1008 questions. *Or less.* One good question makes for an **answer** that changes one’s life for good. 108 questions should answer it all. Start asking – learn what to ask about.

[‡] Amateurs scare people and themselves with transits.

[§] Around 500 directions represent the basic mathematical predictive tools, of which e.g. precessed secondary ascendant transits come as last touch. Transits are therefore the least relevant direction among the 500 in general use as concern quick prediction. Predictions are made using directions. Anyone can be trained in half an hour in the art of directing. The beginner will scan your life by memory, thus determining e.g. all the loves in your life by date and quality: in quarter an hour.

Right, we had it all made up. There is no real sky after all. NASA is just pretty pictures, desktop décor. But what if there is - a real sky? Something ... eventually acceptable, even in confronting superstition and lies? That should not bother you if you are in the business. Not at all. But what if you have a white crow, in the family perhaps, something like an astronomer? Astronomers have this nasty habit of referring to the real skies as if there were any. This whole business, life in general, is not about telescopes. It is about liking.

RENT

“Rent” serves as auxiliary supplement to VIP services; especially GOLD, PLATINUM and OSMIUM. While renting a service may be already implied at the GOLD level, further personal involvement may entail “physical” assistance, much in the fashion of the originating RTRRT, when delivery was involved as personal physical presence of the Master. The last intimation towards physical assistance was found in peripatetic saunter.

E-MAIL

Availability plus all details are of course discussed by e-mail, thus <mailto:aeonflvx@gmail.com> alternatively <mailto:tarant8l@fastmail.fm>

PAYMENTS

Anticipations, installments or donations are addressed to http://users.tmok.com/~tarant8l/paypal/RTRRT_VIP_paypal.html

PRICING

The prices as proposed serve for general estimation. Eventual traveling expenses and lounge are excluded from the following pricelist.

DISCRETION

A *one on one* relationship is preferred from the presence of unnecessary disturbances. However, all arrangements may be made. The RTRRT still rather make for elite than mass initiation. Thus, RTRRT are kept secret as well as exclusive in their quality.

PERSONAL TOUCH

An hour of physical presence of the master will cost from 200 EUR. Peripatetic instruction along with casual divination as well as RTRRT initiation is implied. This sort of initiation services was initiated in the city of bridges with the establishment of the Academic Zodiac and RTRRT in the seventies of the past century. Peripatetic initiations serve nonchalance as the informal discourse is disturbed only by the surrounding beauty.

RENT AN ASTROLOGER

One can rent an astrologer for intensive consultation. This option may include asking 1008 questions. Answers should be available already from 10 EUR per question. Long term engagements may not be readily available. However, in special cases it is possible to obtain assistance even through years of service. Tradition wants that the court shaman pledges oneself for a lifetime of servitude to the just cause. In that fashion, RTRRT initiates and Academic Zodiac fans enjoy years of active information flux from the Author.

PERSONAL HOROSCOPE

The traditional price for a complete personal horoscope is 1500 EUR.

HOUSES OF LOVE

In astrology, the 11th house is the house of love, while both the 7th and 5th represent enemies, namely rivals and divorce. The descendant thus becomes the personal devil star.

KENOTHEISM

Much as every house is the house of love, so every house is the house of money. The second house is the house of personal power, while the eight represents the power of the personal devil, thus death threatⁱ. Not that in daily terms, Taurus risesⁱⁱ for only five minutes per rotation: one has only five minutes of glory, exactly as predicted by seers.

1008 HOUSES

Every house in Astrology flourishes and overflows with myriads of attributions. Alternative 24 or 16 houses systems have been recentlyⁱⁱⁱ developed against 6, 7, 8, 16, 22, 24, 27, 28^{iv} or 43 houses systems.

CARTESIAN HOUSE SYSTEM

The Cartesian house system being tested on spacecraft offers a wide variety of solutions and applications for astrologers working under water, lamas and cosmonauts.

ASSEMBLING THE HOUSEHOLD

What is a house? Simply an assemblage point. As an assemblage point, it can be manipulated as every item of the Aspectarian, at will. Thus, the Astrologer determines the quality of the houses and not vice-versa!

1008 ATTRIBUTIONS

While the attributions for the houses were elaborated in overabundant detail elsewhere, here's an example. The nether descendants are seen much as banking gremlins - One has to descend towards their dark dungeons in order to ride their dragon. The best example is Venus dropping from Pegasus and into Cetus.

12th HOUSE

The 12th house is the house of happy end. Time and space have gone dissolved for the illusion they are. Tao knows neither yin nor yang. One was never born, had no father and no mother at all. The 12th house being the luckiest of all, it not only completes but also destroys the wicked circle of samsara. The master of the 12th house is thus not only the master of all horoscopes but also final destroyer of horoscopes, fate and karma – Hayagrivananta.

TWEAKING MAGICK

During his own mission on this planet, the avatar of the Eon of Cetus II released an array of portable future-changing techniques dubbed the RTRRT. With bad omens as already discredited by the Academic Zodiac, the RTRRT served as tweaking magick for one. The academic Zodiac RTRRT system patches the Vedas, from the name Hayagriva + Ananta – forever patching the Vedas, or zodiacal avatar. Sai Baba was duly informed –the yellow letter – of his own natal Sun-sign, Libra, born on November 23rd.

WHAT YOU DON'T KNOW *CAN* HURT YOU

Do you know your own true Sun-sign? Ascendant? Moon sign? What you don't know *could* hurt you! Your true natal skies reflect your original nature. This has been taken from you as you embraced default¹. Since you were imposingly asked to embrace default at an early age, false personalities took root within you allegedly “for your own good”. Your true natal ascendant not only acts as personal exorcism, revenge and freedom path maker, but also opener, guide and guardian angel. Your original natal skies reflect your true nature. In taking into account galloping **zodiacal offset** now approaching fantastic **seven signs**², one can have just *any* wrong organ cut out!

NETHER ASCENDANTS

Alixé has Moon ascending in Cetus. This means that she also of course has a Cetus ascendant. As Cetus is the sign of our times³ it is of course one of the best documented among large zodiacal ascendants.

² The zodiacal offset reaches six constellations, approaching seven, for winter natiivities in the northern hemisphere as well as summer births in the southern hemisphere.

For New Year's Eve 2012, Jupiter is in Pisces, near Cetus III. Jupiter was in Cetus in the year 2011, where we expect Uranus for the year 2012. These zodiacal positions are both sidereal and tropical, since there is only one Jupiter in the real sky, not two or many.

CODE #1622

What is 1622? 1622 is a memo-code – one memorizes it in order to perform horoscope rituals. Tarot fans will have no problem visualizing the 16 ascendants and 22 zodiacal stations, while integrating the 16 elementary permutations with the 16 guardian angels. The Aspectarian being largely completed before year 1984, it has a solid history as it integrates eastern divinatory practices with the zodiacal wheel and the Tarot. While said Aspectarian is ten years older than the zodiac, the complete Tarot is still updating its delineations for the 1008 planets.

EXPANDED TAROT

While the core initiation system is based on the 22 zodiacal stations plus 16 ascendants, the expanded one by far outreaches 1008 planetary delineations. All dwarf planets, centaurs, comets and classes of objects of interest like outer guardians, Apheles or Nibiruoids are of course included. One may say that the whole of the local universe is included along with more than a hint towards omniverse at large.

201.2 EUR

Not everyone was entitled to one's own true natal ascendant in the past. Only recently the price of the natal ascendant dropped from 1500 EUR to 500 EUR only. Of course, faithful readers and RTRRT initiates always aim at deserving their best! Horoscopes for the year 2012 promotive price 201.2 EUR. Finally you may inspect your true natal zodiacal positions with confidence. Your guardian angel is the eastern ascendant.

TAROT ZODIAC

Nowadays even a toddler laughs at the thirteen constellations zodiac, a simplistic model of the past. Everybody knows that there are 22 zodiacal constellations along with 16 ascendants for the current epoch, as neatly presenting an initiation system: the 1622 Tarot.

WHY DO YOU NEED THE ACADEMIC ZODIAC

Why do you need the Academic Zodiac for? Disinfection. Freedom. Information. Ecstasy.

ACADEMIC ZODIAC

Is there something worse than identity theft? Perhaps the lack of any? What is the profit in assigning just as any identity to anyone? Obviously, one who is not oneself will play to default tune; purchase Coca-Cola as it were.

DOUBLE FAUX IDENTITY

We have seen that even a single false identity makes for funneled marketing, even political predisposition. In defending one's false self, one will fain lay down one's own life for a false flag. As false heraldry is everywhere due to zodiacal offset, millions have died already against precession. A false identity will gladly accept another. Paradoxically, one who is no longer or has never been oneself at all will gladly condescend to multiple faux identities. One is not oneself already, so not being oneself comes natural: more not being oneself is welcome. Like with drug abuse or booze, another round will do well. While even through some vegetable drugs and holy libation one may in fact partly find oneself, assuming false ascendants and horoscopes leads one farther and farther from oneself.

TV LOUNGE

As the quantity of false horoscopes multiplies, media press grows in order to nail people to their TV sofas. Lounging idly before the TV makes for being hypnotized and re-hypnotized again by a great quantity of memes.

OLD YORK AT PHILADELPHIA

The purpose of the Masonic state was not to inform – how could one be informed by those who cherish and spread disinformation? The purpose of modern masonry is not orientation of the temple – how could they orientate anything when they have no zodiac?

ZODIACAL OFFSET

In Australia, zodiacal offset happens mostly in summer. Summer nativities suffer from up to **six** signs of zodiacal offset. If the apex of ridiculous error is sought for, then it is found in Australian summer within their so-called “tropical” projections. The result is that if anyone on this planet is definitively not oneself at all, is an Aussie summertime birth.

TRIVIA

The trivial subject has been discussed before. Our Lord Jesus Christ more or less shares the nationality with the Lord of the Eon⁴ and zodiac. Core Italy not being far from Rome, we can safely assume that every SPQR is zodiacal. Therefore, the zodiac has been determined along the Mediterranean Sea with the Dark Flux and Axis of evil as implied.

SCIENTIA

After the *first* insecure steps, the *second* insecure steps are next. As *second* insecure steps guarantee the *first* insecure steps, gurus conflict. Now when gurus come into conflict, only absolute obedience to *second* insecure steps guarantees a stable system. Not for long.

HABEMVS ZODIACVS

Apart from glorious experimental models as mostly pertaining to tribal shamans⁵, Egypt and of course larger⁶ China; dead humanity had no zodiac, no ascendant set and no astrology at all. This grave vacuum to Jahveh⁷'s creation⁸ has been corrected; in minutes, decades ago.

SCIENTIFIC ZODIAC

The Academic Zodiac of course *works*. Being IAU-NASA-based, it is fully *scientific* in every respect. Will it work for **you**? Your system must change in order for the planet to profit from its first zodiac. You must start putting your belief in science. Any short-term superstitious “tradition” gets eradicated with RTRRT. Proceed to planetary exorcism now.

NETHER ASCENDANTS

Alixé has Moon ascending in Cetus. This means that she also of course has a Cetus ascendant. As Cetus is the sign of our times³ it is of course one of the best documented among large zodiacal ascendants.

EAST-WEST DICHOTOMY?

² The zodiacal offset reaches six constellations, approaching seven, for winter natiivities in the northern hemisphere as well as summer births in the southern hemisphere.

³ Eon.

Astrology = Astronomy

Tropical = Sidereal

For New Year's Eve 2012, Jupiter is in Pisces, near Cetus III. Jupiter was in Cetus in the year 2011, where we expect Uranus for the year 2012. These zodiacal positions are both sidereal and tropical, since there is only one Jupiter in the real sky, not two or many.

CODE #1622

What is 1622? 1622 is a memo-code – one memorizes it in order to perform horoscope rituals. Tarot fans will have no problem visualizing the 16 ascendants and 22 zodiacal stations, while integrating the 16 elementary permutations with the 16 guardian angels. The Aspectarian being largely completed before year 1984, it has a solid history as it integrates eastern divinatory practices with the zodiacal wheel and the Tarot. While said Aspectarian is ten years older than the zodiac, the complete Tarot is still updating its delineations for the 1008 planets.

EXPANDED TAROT

While the core initiation system is based on the 22 zodiacal stations plus 16 ascendants, the expanded one by far outreaches 1008 planetary delineations. All dwarf planets, centaurs, comets and classes of objects of interest like outer guardians, Apheles or Nibiruoids are of course included. One may say that the whole of the local universe is included along with more than a hint towards omniverse at large.

201.2 EUR

Not everyone was entitled to one's own true natal ascendant in the past. Only recently the price of the natal ascendant dropped from 1500 EUR to 500 EUR only. Of course, faithful readers and RTRRT initiates always aim at deserving their best! Horoscopes for the year 2012 promotive price 201.2 EUR. Finally you may inspect your true natal zodiacal positions with confidence. Your guardian angel is the eastern ascendant.

TAROT ZODIAC

Nowadays even a toddler laughs at the thirteen constellations zodiac, a simplistic model of the past. Everybody knows that there are 22 zodiacal constellations along with 16 ascendants for the current epoch, as neatly presenting an initiation system: the 1622 Tarot.

WHY DO YOU NEED THE ACADEMIC ZODIAC

Why do you need the Academic Zodiac for? Disinfection. Freedom. Information. Ecstasy.

ACADEMIC ZODIAC

Is there something worse than identity theft? Perhaps the lack of any? What is the profit in assigning just as any identity to anyone? Obviously, one who is not oneself will play to default tune; purchase Coca-Cola as it were.

DOUBLE FAUX IDENTITY

We have seen that even a single false identity makes for funneled marketing, even political predisposition. In defending one's false self, one will fain lay down one's own life for a false flag. As false heraldry is everywhere due to zodiacal offset, millions have died already against precession. A false identity will gladly accept another. Paradoxically, one who is no longer or has never been oneself at all will gladly condescend to multiple faux identities. One is not oneself already, so not being oneself comes natural: more not being oneself is welcome. Like with drug abuse or booze, another round will do well. While even through some vegetable drugs and holy libation one may in fact partly find oneself, assuming false ascendants and horoscopes leads one farther and farther from oneself.

TV LOUNGE

As the quantity of false horoscopes multiplies, media press grows in order to nail people to their TV sofas. Lounging idly before the TV makes for being hypnotized and re-hypnotized again by a great quantity of memes.

OLD YORK AT PHILADELPHIA

ZODIACAL OFFSET

In Australia, zodiacal offset happens mostly in summer. Summer nativities suffer from up to **six** signs of zodiacal offset. If the apex of ridiculous error is sought for, then it is found in Australian summer within their so-called “tropical” projections. The result is that if anyone on this planet is definitively not oneself at all, is an Aussie summertime birth.

The trivial subject has been discussed before. Our Lord Jesus Christ more or less shares the nationality with the Lord of the Eon⁴ and zodiac. VIP SERVICES 2012

While 500 EUR remains the standard *entry fee* for horoscopes and VIP RTRRT, one can get a serious horoscope already for 200 EUR.

ON HISTORICAL PRICING

In browsing the VIP Services Catalog, one may encounter 1500 EUR price tag. This is one of the incipient price tags for initiate horoscopes, since the inner service issued 1500 pp that is 1500 pages per horoscope. A 1500 pages horoscope became standard for inner RTRRT initiates. The number of pages came spontaneously while filling in data and delineation – at the time we claimed 1008 planetary delineations – for the inner initiates. While the outer horoscope consisted in 250 pages, the inner one was set at 1500 pages per horoscope. Often, in fair estimation, the code says megabytes instead of pages.

HISTORICAL DISCOUNTS

The most acclaimed historical discount was the 50 EUR ascendant – one would find out one's own true natal ascendant – and thus veritable personal guardian angel - *and more* for only 50 EUR – may be still negotiable in your own case.

“Ask 108 questions and be answered.” Our historical motto says it all: “Ask and you shall receive.” Unfortunately, not everyone knows what to ask: we can even tell you what and why to ask, in fact we are doing it all the time through myriads of articles and publications: know yourself and you shall not be diverted. aeonflvx@gmail.com

TAROT

The zodiac *is* the Tarot. The (22) zodiacal stations are the major arcana while the (16) guardian ascendant form elementary permutations. While the zodiac that is Tarot dawns as common magical knowledge, there are three tarot initiations available. Some say four or five, but three will do for a series of lifetimes, lifetimes providing, of course.

ⁱ Although inessential in most calculations- see *Sunless Astrology*. Non-determining for most purposes, the Sun is a malefic like any other – it can be said to encompass all negative ego energy. On the other hand, in most traditions it is the Moon that determines one’s original attitude, thus leading to true self. Shiva stands for lunar directions, of which some 500 are perused in popular astrology.

ⁱⁱ It is generally assumed that there are 13 Sun-signs. While that is a correct assertion, the number of Sun-signs expands to 15, even 16. As concern the Moon, the matter is infinitively vaster as well as complex. Your natal Moon can be anywhere from Auriga, Corvus or Sextans. Who knows? We do.

Welcome to the year of the ||::|| dolphin, 2012. As through the years 2011 and 2012 most planets transit Cetus, [children](#) born at this time were nicknamed “[dolphin kids](#)”. These *special children* deserve [special horoscopes](#) that represent their own [true natal skies](#). One can even have all natal planets *plus ascendant* in Cetus, thus exemplifying the sign of our times. ErisT¹ is “resident” in Cetus for this generation.

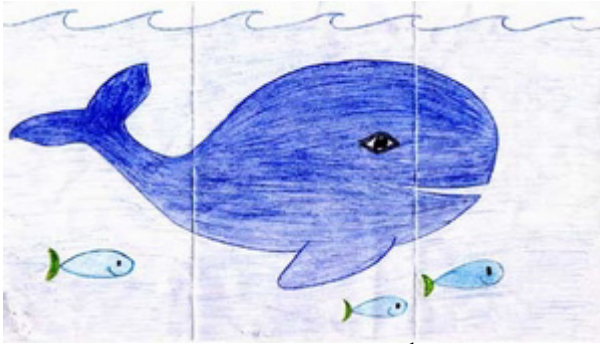

Cetus is one of the 22 zodiacal constellations and also one of the 16 eastern ascendants for the current epoch. It is the sign of our times. Whales, narwhals and dolphins are our astral teachers besides representing holy totems of our epoch. Cetus marks the sign of [Jonas](#). While most planets waded through Cetus in the year 2011, year 2012 marks the apex of the present eon of Cetus with Sun and Uranus congressing in Cetus for the spring equinox 2012. 6-6-2012 children are next! ||::||

Dad, mom, [Uranus in Cetus](#) is upon us! What is the meaning of Sun plus Uranus in Cetus? In the year 2011, we had [Jupiter in Cetus](#) and many things happened... After the [Æon of Cetus](#) and [Age of Pegasus](#) we reenter the Age of Pisces (II). These [critical years](#) have been delineated one by one, month by month and day by day from [2012](#) to [2017](#) and [beyond](#). Years [2014](#) and [2015](#) received special attention, besides [2018](#) and Apophis' [2025](#). ||::||

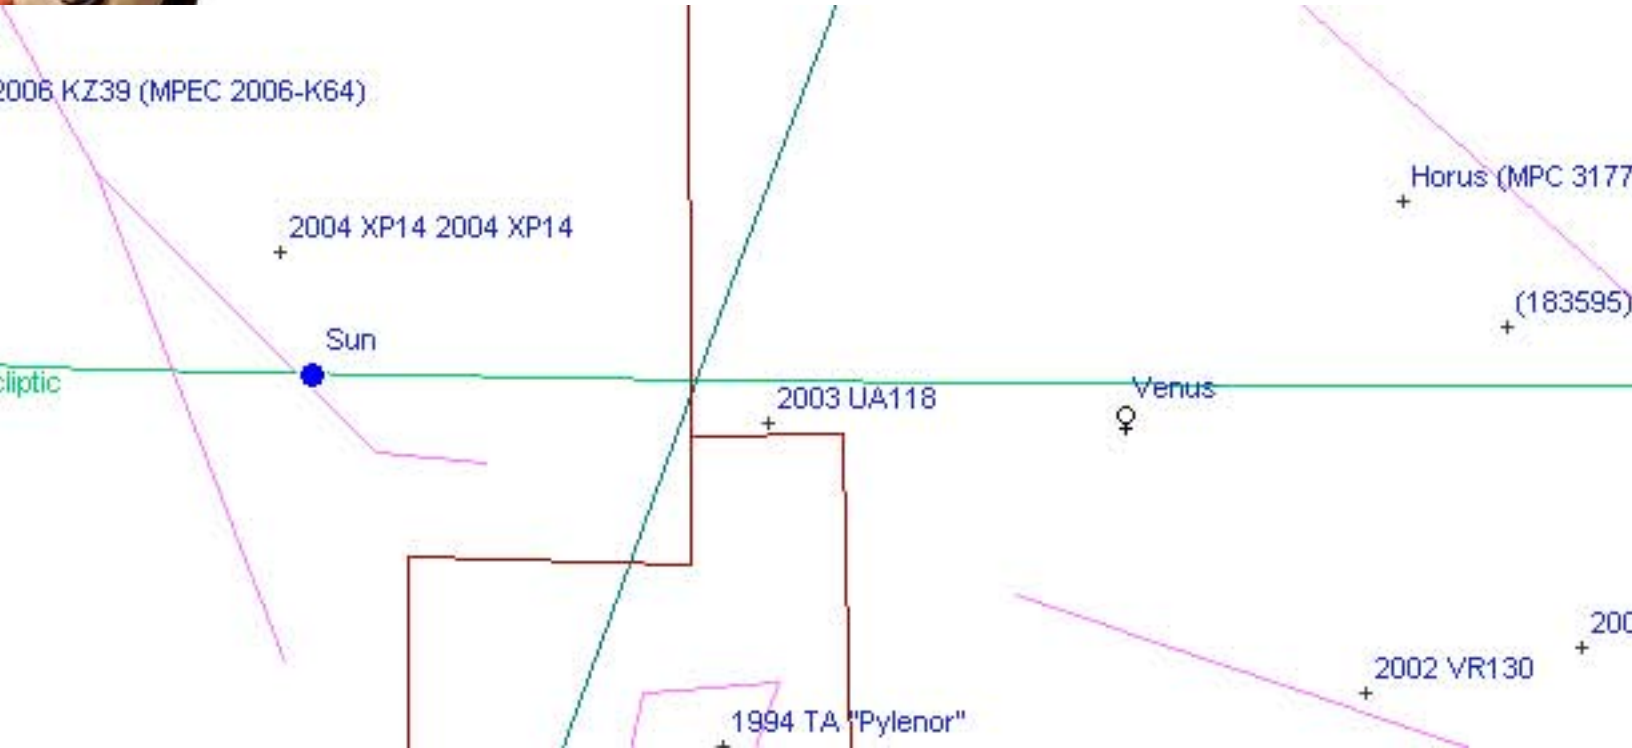

No year ahead can be bad when you change it with your own RTRRT instant magick tools. Know your own year [2012](#) in order to outfox fate in time. Scan your future - *change your future NOW*. Dive deeper in underlying your karmic flows while redirecting events towards an optimal issue at will. RTRRT can be practiced everywhere at any time – your invisible pocket instant magick that does not even require any pocket at all! ||::||

In the years 2011 – 2012, [children](#) are being born with 8 [planets](#) in [Cetus](#) plus an eventual Cetus ascendant. Especially 6-6-2012 kids remind those [Hydra](#) kids with [Venus](#) and [Tekton](#) in Hydra. Remember [Alixé](#)? She had Moon ascending in Cetus, Mercury in Sextans, Venus in [Orion](#); Juno in (zodiacal) [Scutum](#) and [Pluto](#) sitting on the [ascendant](#) of the [USA](#) in [Serpens](#) Cauda. What about [you](#)? ||::||

Discreate doomsday scenario¹! In the year 2012, [prosperity](#) rendering is of course *still* in your own hands! Redesign **your** 2012 *freely* by perusing simple [RTRRT](#) creations¹ in daily life. RTRRT¹ self-[initiation](#) is discrete, quick and easy; even *easier* than [20 Minutes Astrology](#). Wade through 2012 and beyond¹ with freehand RTRRT tools – simple mental exercises that change &or manifest any future event for you right now¹! ||::||

Psa 91:11 For he shall give his angels charge concerning thee, to keep thee in all thy ways. Your guardian angel is the eastern ascending star. There are sixteen (16) ascending constellations at east for the current epoch. Which one is your own guardian angel? <http://ow.ly/6TpWd> Conosci il tuo unico angelo custode? Il sant'angelo custode del tuo oroscopo è uno dei sedici ascendenti nascenti a est per l'epoca presente. Qual è il tuo unico angelo custode già stella dell'est? <http://ow.ly/6TsxO>

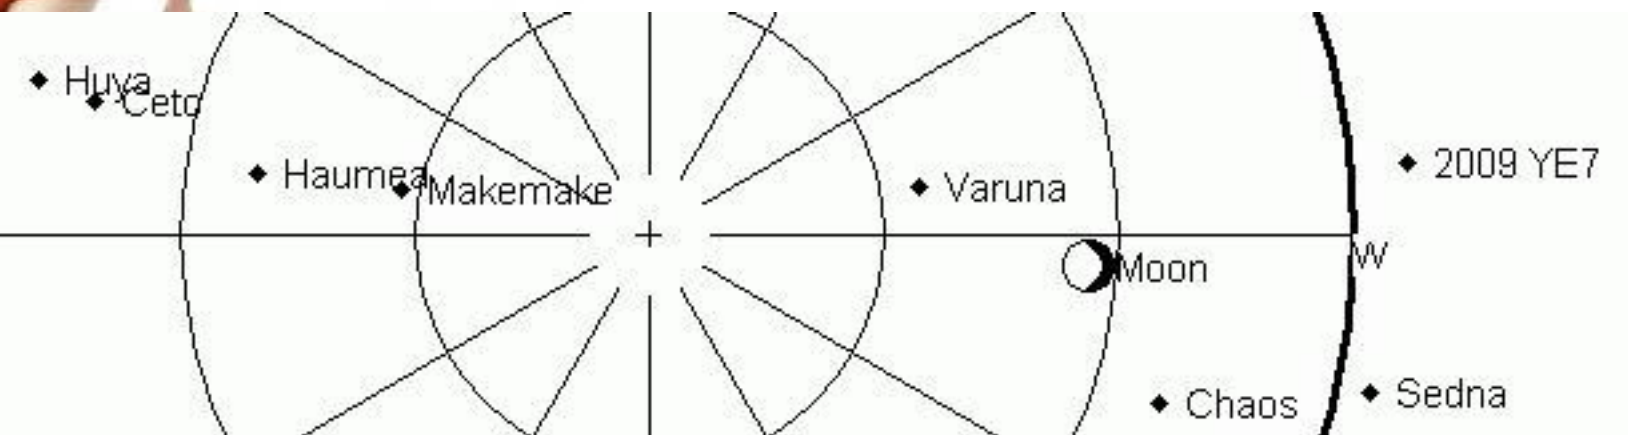

The Sun figures as one of the most acclaimed¹ objects¹ in popular astrology¹. Do you know its veritable zodiacal position? As free horoscopes are mostly intended for entertainment only, they never reproduce any original natal sky at all¹. Thus, Sai Baba was born with Sun in Libra on November 23rd. How about you? <http://ow.ly/6Tq9A> The generally known 13 Sun-signs expanded are in fact 15, even 16. Is your natal Sun in Orion or Cetus?

The lunar zodiac represents a complex grid. Leave the calculations to us as your natal Moon sign gets properly determined. Alixe¹ has Moon rising in Cetus, Mercury in Sextans along with Venus in Orion. Her Juno is in zodiacal Scutum while Pluto sits on the ascendant of the USA in Serpens Cauda. Is your child a genius as well? <http://ow.ly/6Tqb1> Your natal Moon can be anywhere from Auriga, Corvus or Sextans. Who knows? We do.

201.2 EUR

Not everyone was entitled to one's own true natal ascendant in the past. Only recently the price of the natal ascendant dropped from 1500 EUR to 500 EUR only. Of course, faithful readers and RTRRT initiates always aim at deserving their best! Horoscopes for the year 2012 promotive price 201.2 EUR. Finally you may inspect your true natal zodiacal positions with confidence. Your guardian angel is the eastern ascendant.

TAROT ZODIAC

Nowadays even a toddler laughs at the thirteen constellations zodiac, a simplistic model of the past. Everybody knows that there are 22 zodiacal constellations along with 16 ascendants for the current epoch, as neatly presenting an initiation system: the 1622 Tarot.

WHY DO YOU NEED THE ACADEMIC ZODIAC

Why do you need the Academic Zodiac for? Disinfection. Freedom. Information. Ecstasy.

ACADEMIC ZODIAC

Is there something worse than identity theft? Perhaps the lack of any? What is the profit in assigning just as any identity to anyone? Obviously, one who is not oneself will play to default tune; purchase Coca-Cola as it were.

DOUBLE FAUX IDENTITY

We have seen that even a single false identity makes for funneled marketing, even pro-political predisposition. In defending one's false self, one will fain lay don one's own life for a false flag. As false heraldry is everywhere due to zodiacal offset, millions have died already against precession. A false identity will gladly accept another. Paradoxically, one who is no longer or has never been oneself at all will gladly condescend to multiple faux identities. One is not oneself already, so not being oneself comes natural: more not being

oneself is welcome. Like with drug abuse or booze, another round will do well. While even through some vegetable drugs and holy libation one may in fact partly find oneself, assuming false ascendants and horoscopes leads one farther and farther from oneself.

TV LOUNGE

As the quantity of false horoscopes multiplies, media press grows in order to nail people to their TV sofas. Lounging idly before the TV makes for being hypnotized and re-hypnotized again by a great quantity of memes.

OLD YORK AT PHILADELPHIA

The purpose of the Masonic state was not to inform – how could one be informed by those who cherish and spread disinformation? The purpose of modern masonry is not orientation of the temple – how could they orientate anything when they have no zodiac?

ZODIACAL OFFSET

In Australia, zodiacal offset happens mostly in summer. Summer nativities suffer from up to **six** signs of zodiacal offset. If the apex of ridiculous error is sought for, then it is found in Australian summer within their so-called “tropical” projections. The result is that if anyone on this planet is definitively not oneself at all, is an Aussie summertime birth.

TRIVIA

The trivial subject has been discussed before. Our Lord Jesus Christ more or less shares the nationality with the Lord of the Eon¹ and zodiac. Core Italy not being far from Rome, we can safely assume that every SPQR is zodiacal. Therefore, the zodiac has been determined along the Mediterranean Sea with the Dark Flux and Axis of evil as implied.

¹ Eon of Cetus II.

SCIENTIFIC ZODIAC

The Academic Zodiac of course *works*. Being IAU-NASA-based, it is fully *scientific* in every respect. Will it work for **you**? Your system must change in order for the planet to profit from its first zodiac. You must start putting your belief in science. Any short-term superstitious “tradition” gets eradicated with RTRRT. Proceed to planetary exorcism now.

RTRRT⁶: LIFE’S WHAT YOU MAKE IT

Life’s what you make it. No bad “transits” can hurt you any longer. You had them miscalculated in the first place⁷; second, the RTRRT *dissolve* any bad occurrences throughout time and space: and with the PCS⁸, miracles happen instantaneously as bad thought-forms dissolve in their impotent evil. VIP Services for RTRRT initiates offer custom made lives for self-made magicians. Complicated? Extremely simple: the ancient art of Instant Magick has never been so available before – ever http://users.tnok.com/~tarant8l/paypal/RTRRT_VIP_paypal.html

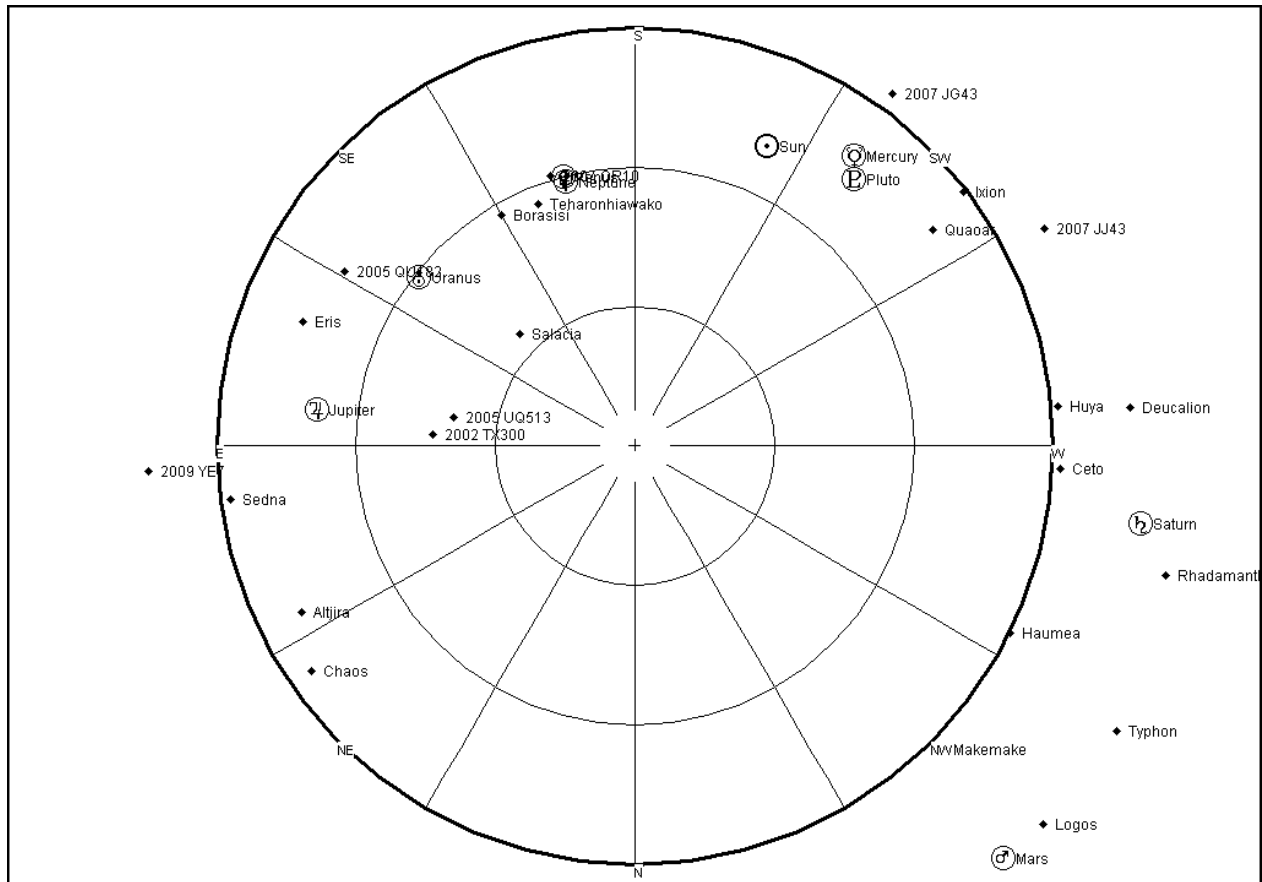

SIMPLE STARS

When astrology *is* astronomy, there is no conflict between superstitions at all, or rather; we leave the conflicts to superstitions. People can finally *know* their own selves through their original natal skies. Precession guides racial progress in announcing the rise and retreat o variegated cultures. The ascendant set is respected in its guardian function. The guardian angel becomes the eastern star at birth.

⁶ Real Time Reality Rendering Tools.

⁷ Logically, any RTRRT initiate gets a horoscope done as one’s own guardian angel depends on the proper placement of the eastern star.

⁸ Personal Cosmic Secretary.

The Academic Zodiac allows for a *personal horoscope* far beyond any popular superstition for the masses, aloof in its divine simplicity. And when we say *personal*, we mean *you*. You need your own *original* natal stars much as a baby needs its mother's milk - they nurture who you really are.

INTRODUCTION

VIP stands for Verified Identity package. Why should one verify one's own identity? Due to various outside influences, man tends to drift away from oneself in time.

GIARDIAN ANGEL ASCENDANTS

By observing one's own guardian angel ascendant, a person aligns to one's own original self. There are 16 ascendants rising at east - one of them is yours.

TAROT ZODIAC

The 22 zodiacal constellations beckon you towards their exploration. Along with the 16 ascending elementary permutations, the 22 arcana of the zodiac represent a revealing labyrinth within your own original self.

<http://lulu.com/astrology> is your premier guide to the latest dwarf planets^{xi}. The site hosts all the dwarf planets and centaurs in astrology, from the first to the last. From Pholus and 1992 QB₁ to 2007 JG₄₃ and 2009 YE₇. Yes, we *always* delineate the objects *before* they get^{xii} their proper names^{xiii}! We catch them *in flagranti* before they reach the dull safety of their nomination. Thus, the object is delineated, its spirit, not its designation or name.

Nama and *rupa* are discreated. As in True Mind Distiller^{xiv}, names and forms drop of in order to expose essence.

676085	2010	2010	KZ39	[...unnamed...]	4.00

These are the last *relevant* entries as concern the dwarf planets candidates. Note that 2009 YE₇ has received copious delineation (in the year 2009) like all items of interest in modern astrology. Our present research is therefore focused on 2010 EK₁₃₉.

PUBLICATIONS DEADLINE

The cetacean^{sv} years 2011 & 2012 do mark interesting times, indeed. At present, the zodiac is partly vanishing from the web due to a timed deadline. Thousands of publications will expire by mid October 2011, never to be republished again. Make your download till October 14th 2011

when the revealing publications are alas scheduled for timely self-destruction. You don't want the strategic zodiacal as well as magical material to fall into wrong hands, do you now?

-
- i Your only reference to dwarf planets and centaurs, from the first to the latest discovery.
 - ii Our dedicated publications inform on dwarf planets in great detail. Thus, over 6 GB of Eris material has been made available to the public since August 5th 2005. 2007 OR₁₀ was our new entry in early 2009.
 - iii There has been quite some experimenting as concern the natural "Night & Day" 24 houses, then 16 and finally 12. Nevertheless, the twelve Cartesian houses can be hardly called "traditional" since they feature e.g. Moon in Corvus at the third cusp, Venus ascending in Scutum or the Fed {FRS} culminating in Phœnix.
 - iv Surely, 2009 YE₇ can be called more recent. Unfortunately, the object has been found smaller then according to its incipient estimation.
 - v See our dedicated publications as concern the quoted newly discovered objects.
 - vi The category of Earth is by far the most important as well as utterly unknown one.
 - vii Same as precessed ascendants. We assign special significance to subconscious ascendants in a horoscope.

- When it comes to them centaurs, we tend to be conservative as concern their definition; however, e.g. Damocles is included by default within every analysis and we also welcome any comet that would candidate as centaur. There are actually a couple of actual comets – centaurs that we intend to integrate within the Academic Zodiac system.
- Two brand new centaurs are of course included^{viii}, namely 2006 AA₉₉ and 2007 JG₄₃
- Since the first centaur Pholus was discovered, we tend to delineate centaurs in the twelve houses both extrazodiacally and zodiacally, before they are named. This method relieves analysis from the bias of a chosen name. Most post naming delineation is in fact based on name.
- Centaurs were variously astrologically classified as reptilian, white and immortal.
- Sometimes a bureaucratic mage suffers castration at the hand of its own kin. Within our centaurean series, this is the case of the unfortunate consort of Chariklo. An ex centaur was found to be a dead comet chunk, the castrated Chiron 2060 Chiron (1977 UB) redesignated as comet **95P/Chiron**.

Recently we introduced a couple of new objects with delineation due for centaur 2006 AA₉₉ as well as dwarf planet candidate 2007 JJ₄₃. That is to say, these objects are bound to be included in horoscopes of RTRRT initiates. Accidentally, the copious 2007 JG₄₃ delineation *precedes* that of 2006 AA₉₉, in timely unison with “Obama planet” 2007 OR₁₀. Said dwarf planet was nicknamed “divorce planet” for the occasion. Much as in the case of Famke Janssen's *political career*^{viii}, we learned about apparent President Obama's *divorce issues* only *after* publicizing the series. Thus, no default news was included. Much as Famke Janssen *could* become the new pope^{viii} (sic), so Obama's divorce is but a fair possibility. However, we alluded to the divorce from Vatican at its lingering stage^{viii} in 2014^{viii}, rather than any civil marriage issues for that matter.

xii If they ever do. Names proper are rather rare in modern astrology. Even the largest objects duly await their nomination by the IAU. The Harvard MPC is a fairly cooperative institution, much as NASA JPL. Even the IAU has astrology on its schedule. This raw information should encourage any incipient astrologer in participating in the naming of the dwarf planets and objects of interest. We often use “objects of interest”, mostly with the meaning of *all* objects {sic}.

xiii Later on, yahoos will “delineate” the *names*, but not the objects in themselves. No wonder nothing was known of the planets and minor planets, not even of giant comets: analysis focused on their names, not the spirits themselves. Any analysis devoid of theurgy borders on popular numerology: cheap amusement that may ruin quite some lives.
